PRACTICE

How we work

Face to face with the business, not through a ticket queue.

What we do

Tailored solutions end to end — custom websites, search visibility, and mobile apps built around how a business actually operates.

Why us

We sit with Indian businesses directly to understand what they need, and deliver work that drives growth. We build long relationships, not one-off deliverables.

Our vision

To give Indian businesses innovative, scalable digital strategy that earns them visibility and success in a crowded market.

PRODUCTS

What we've built

Six platforms of our own, each shipped to a live audience.

MARKETPLACE

An online marketplace for eyewear — prescription glasses, sunglasses, and frames. Shoppers browse by style and prescription, compare across sellers, and order in a few steps.

E-commerce Catalog Payments

okulo.prixwerkz.in ▶

TICKETING

A booking platform for everything with a seat and a start time — cinemas, theatre, live shows, concerts, and events. Real-time seat selection, one checkout, tickets on the phone.

Seat maps Real-time Mobile tickets

HEALTHCARE

A complete hospital management suite — patient records, appointments and admissions, ward and theatre scheduling, pharmacy and inventory, billing and insurance, all on one system.

EMR Scheduling Pharmacy Billing

vitalis.prixwerkz.in ▶

VR / TOURISM

A virtual reality app that lets travellers walk through Cambodia's temples, markets, and landscapes before they book — built to put the country in front of people who haven't considered it yet.

VR Immersive media Tourism

[On the App Store](#) ▶

TRAVEL

A complete tours and travel service in one place — book tours and packages, entry to attractions, taxis and vehicles, and guides, without stitching together five separate bookings.

Tours & packages Attractions
Transport Guides

voyara.prixwerkz.in ▶

CIVIC PLATFORM

A general-purpose platform for municipalities — the shared backbone a local government needs to run services, handle citizen requests, and publish information, without commissioning it from scratch.

Government Citizen services
Multi-tenant

SERVICES

What we take on

Client work across the stack, from first strategy to shipped product.

Custom software solutions

Software that streamlines operations and boosts efficiency, built to your business.

Mobile & web app development

Apps that feel effortless to use and keep customers coming back.

SEO & digital marketing

Better visibility and targeted campaigns that bring the right people in.

E-commerce development

Scalable storefronts with secure payments and inventory that keeps up.

AI & automation

AI-driven tools that cut manual work and sharpen decisions.

Business & IT consulting

Guidance on digital transformation, technology choices, and growth.

Graphic & brand design

Logos, digital graphics, and a visual identity that holds together.

Photography & media

Photography and media production for sites, campaigns, and brand stories.

TEAM

Who you'll talk to

You reach the people who build the work.
